JOB TITLE: .NET Software Development Engineer

GENERAL SUMMARY

We are looking for an experienced .NET Software Developer working on client projects. This individual will work with a team of developers to develop .NET based applications.

- Excellent knowledge and work experience with Microsoft .NET platform (VB.NET and C#.NET) are required.
 - Knowledge and experience with Microsoft SQL Server 2000/2005 are required.
 - Knowledge and experience with enterprise technology and architecture, including SOA, Web Services, XML, SOAP, COM/DCOM, and Microsoft IIS, are strongly preferred.
 - Knowledge and experience with web enablement technology, including ASP.NET/ASP, HTML/DHTML, XML, CSS, JavaScript and AJAX, are preferred.
 - Experience with Embedded OS, such as WinCE, is preferred.
 - Must be a fast learner. Be able to come up to speed on new applications and technology in a very short amount of time.
 - Must be details oriented, with strong analytical skills and problem solving skills.
 - Ability to prioritize and manage several tasks at once.
-
- BS in Computer Science or related fields required, MS in CS preferred.
 - At least 5 years of work experience on Windows application development and integration.
 - Microsoft certifications such as MCSD and MCPD are preferred.

Compensation will be commensurate with qualifications.
